

The following slides are an outline for your presentation to your fellow students and to your clinical site.

Feel Free to adjust to fit your project but please cover the following:

1. Title Page
2. System you are in and Patients you are seeing
3. How is your team adding value to patient care?
4. Findings for interprofessional team development
5. Information/Data gathered and findings for clinical work
6. Conclusion and recommendation to the site

Title Page

- Your team members
- Your site
- Your preceptor

System and Patients

- Describe the system you are working in
- Describe the patient population you are working with
 - Describe your teams' understanding of the sensitivity to culture and social determinants you needed to develop with the population you saw
 - Did this impact your team in any way?

Adding Value

- In what way did your team add value?
 - What was your work?
 - How was the work meant to help the organization?
 - How does it help the patients?

Findings: Teamwork

- Discuss what you learned through practicing and assessing your team skills using the Checklist and DOTI.
 - How did your team improve?
 - What do you still need to work on?
 - Discuss the skills your team worked on the most
 - How did your team skills impact the work that you did?
 - What did your team learn about working with other professions?

Information and Data

- What data did you gather?
- How did you gather and organize the information?
- What did you learn about your team through collecting the data?
- What did you learn about the patients you have been seeing and the clinical site through collecting this data?
- What could be improved for your work in future?

Findings: Data

- **Present what you found**
 - The data from your counts
 - What you found from work you did at the site
- **Did your team do any of the following? Discuss**
 - Education of patients
 - Motivational interviewing
 - Referrals
 - Other

Conclusion

- **Final conclusion about your work**

What were your final findings and suggestions for the site?

- **Final conclusion about teamwork and your team**

How did you improve and what are skills to carry forward in your future careers?

- **Recommendations you can make to the site (What your findings lead to)**

Project Ideas for teams in the future?
